Product Code: UHF0301
Weight: 0.03oz
Dimensions: 2.95in x 0.09in x 0.79in

Price: $3,250.00

Ex Tax: $3,250.00

Short Description
Unsurpassed read distance and sensitivity.

Description
Box of 5000.

The FT 301 is the latest in the NOVO LaundryChip transponder family for the textile services market. These ISO 18000-6C compliant, UHF tags allow for high speed, bulk reading in industrial laundry applications at read distances of up to six meters (or 19 feet) without requiring a direct line of sight. These soft, flexible and thin tags can be applied quickly and easily in multiple ways - sewn, heat-sealed or pouched - according to your wash process needs. NOVO was designed specifically to meet the rigors of high volume, high pressure wash workflows to help extend the life of your assets and have been tested in real-world laundries for over 200 cycles to ensure guaranteed tag performance and endurance.

These tags come standard **without** a custom pouch, and will be a heat seal application unless artwork is already on file.

Features

- Outstanding mechanical resistance ensures tag performance and endurance for

reduced wear-and-tear
- Tested for over 200 cycles in real laundries!
- Suitable for autoclave
- Best-in-class for confined field applications
